Our commitment to you: Peace-of-Mind Protection

- Basic Coverage: 3 years/60,000 km
- Powertrain Limited Warranty: 5 years/100,000 km
- Corrosion Perforation Warranty: 5 years/unlimited distance
- Roadside Assistance: 5 years/100,000 km

Your vehicle's unique hybrid/electric components are covered during the Hybrid/Electric Unique Component Coverage, which lasts for 8 years or 160,000 km, whichever occurs first.

The following hybrid parts are covered during this extended coverage period: high-voltage battery, hybrid continuously variable transmission, Inverter System Controller (ISC), DC/DC converter, high-voltage battery connector, battery pack fan assembly, thermistor probe, Hybrid Battery Pack Sensor Module (HBPSM), Battery Energy Control Module (BECM), and PHEV onboard charger.

See your Owner's Guide for important tips on how to maximize the life and capacity of the lithium-ion battery.

Certain conditions apply. For more information on these warranties and coverages, ask your local Ford of Canada Dealer or visit ford.ca.

Ford Extended Service Plan. Help protect your investment and add to your peace of mind by complementing your vehicle purchase or lease with a Ford Extended Service Plan (ESP). Ford ESP protects you against unexpected repair costs after your Basic Coverage in the New Vehicle Limited Warranty expires by covering many vehicle components. Enjoy the drive even more by complementing your ESP with a prepaid maintenance plan, which covers all required scheduled maintenance for your vehicle, plus 8 wear items. See your Ford of Canada Dealer for details.

Ford Credit. Get the ride you want. Whether you plan to lease or finance, you'll find the choices that are right for you at Ford Credit. Ask your local Ford of Canada Dealer for details or check us out at fordcredit.ca.

Ford Original Accessories that are properly installed by the authorized Dealer that sold the accessory will be warranted for whichever provides you the greatest benefit: 24 months/unlimited distance, or the remainder of your 3-year/60,000-km New Vehicle Limited Warranty. Ford Licensed Accessories (FLA) are warranted by the accessory manufacturer's warranty. FLA are designed and developed by the accessory manufacturer and have not been designed or tested to Ford Motor Company engineering requirements. Contact your local Ford of Canada Dealer for details and/or a copy of all limited warranties.

For prompt, courteous answers to your questions: Ford Customer Relationship Centre 1-800-565-3673; Ford Credit Customer Service Centre 1-877-636-7346. 2016 FUSION+HYBRID FUSION ENERGI

Go Further

Captivating. From every angle.

Empowering as well, with your choice of efficient gas, hybrid and plug-in hybrid powertrains. And with its sophisticated style and sculpted lines, always inspiring. The 2016 Ford Fusion, Fusion Hybrid and Fusion Energi Plug-In Hybrid.

Titanium. White Platinum Metallic Tri-coat. Fusion Energi Titanium. Ruby Red Metallic Tinted Clearcoat. Hybrid SE. Magnetic Metallic. Available equipment.

FUSION

6.3 L/100 km (45 MPG) HWY¹

9.4 L/100 km (30 MPG) CITY¹

Motivating. With powerful choices.

Equip your gasoline-powered Fusion with the standard 2.5L iVCT engine or one of 2 EcoBoost[®] turbocharged, direct-injection powerplants.²

With robust low-end torque, EcoBoost technology squeezes maximum power from each drop of fuel. Along with impressive fuel efficiency. Get 181 hp and 6.3L/100 km (45 mpg) hwy¹ from the 1.5L EcoBoost² with 6-speed SelectShift[®] automatic transmission and Auto Start-Stop Technology.²

For performance-minded drivers, a 240-hp,³ 2.0L EcoBoost² teams with a SelectShift automatic.

With Fusion, the power of choice is always yours.

2.5L iVCT

6-speed SelectShift automatic
175 horsepower

1.5L EcoBoost

6-speed SelectShift automatic
and Auto Start-Stop Technology²
181 horsepower

2.0L EcoBoost

6-speed SelectShift automatic
240 horsepower³

SE. Bronze Fire Metallic Tinted Clearcoat. Available equipment.

¹1.5L EcoBoost automatic with Auto Start-Stop Technology. Fuel consumption ratings based on Government of Canada approved test methods. Actual fuel consumption will vary. ²Available feature. ³Figures achieved using 93-octane fuel.

FUSION HYBRID

5.7 L/100 km (50MPG) HWY¹

5.4 L/100 km (52MPG) CITY¹

Efficient. With advanced hybrid technology.

Using both electric and gas power, Fusion Hybrid delivers exceptional ride and handling as it seamlessly switches between its electric motor and 2.0L Atkinson-cycle gasoline engine to help maximize fuel efficiency. In fact, it can operate in electric mode even at highway speeds, thanks to an advanced lithium-ion battery that powers the electric motor.

To coach you to drive more effectively, vibrant Efficiency Leaves grow on the next-generation SmartGauge™ with EcoGuide instrument cluster. The more efficiently you drive, the more lush your green leaves – giving you instant feedback.

Recharging the battery as you drive, the Regenerative Braking System captures over 90% of the brake energy and uses it to help recharge the battery. Even when braking, you're moving forward in Fusion Hybrid.

Hybrid SE. Magnetic Metallic. Available equipment.

¹Hybrid. Fuel consumption ratings based on Government of Canada approved test methods. Actual fuel consumption will vary.

FUSION ENERGI PLUG-IN HYBRID

2.7 L_e/100 km (105 MPG_e) city/hwy combined (electricity + gas)¹

6.1 L/100 km (46 mpg) city/hwy combined (gas only)¹

Flexible. With the option to plug in or not.

With a large-capacity, lithium-ion battery and 2.0L Atkinson-cycle gas engine, Fusion Energi Plug-In Hybrid gives you the additional choice of plugging in. As you drive, it chooses the most efficient mode of operation – either continuing to run only on battery power or turning on its gas engine as needed.

With 2.7L_e/100 km (105 MPG_e) city/hwy combined¹ (electricity + gas), an all-electric driving range of up to 32 km and a gas-plus-electric driving range of up to 900 km,¹ Fusion Energi may run all-electric and use no gasoline at all on short commutes – even while cruising at highway speeds.

Recharge at home in about 7 hours using its LED-illuminated charge port and standard 120V convenience cord. Shorten that to 2.5 hours using a Ford-recommended 240-volt home charging station.² This ULC-listed, weather-resistant portable charging station can move with you if you relocate. A hard-wired station is also available. Please see your Ford of Canada Dealer to help facilitate a professional installation.

Monitor and schedule charging, at home or at one of the growing number of public charging stations, with our MyFord™ Mobile app³ and website. Both feature a charging station locator powered by PlugShare.[®]

¹Fuel consumption ratings based on Government of Canada approved test methods. Actual fuel consumption will vary. 53-litre fuel tank. L_e/100 km is the Government of Canada equivalent measure of gasoline fuel consumption for electric mode operation. ²Available feature. ³MyFord Mobile subscription complimentary for 5 years from the vehicle sale date as recorded by the dealer. Subscription fees apply after 5 years. MyFord Mobile requires a compatible 2.5G independent cellular network. Evolving technology and cellular networks may affect future functionality. Text and data rates may apply to usage.

Gratifying. Enjoy its finely crafted comforts.

Relax in supportive, leather-trimmed, 10-way power, heated front seats with driver's side memory.¹ Recharge your devices with a convenient 110-volt power outlet.¹

Enjoy the output from a well-balanced, 12-speaker Audio System from Sony,^{®1} as well as the peace from acoustic underbody shields and sound-absorption material.

Your sense of responsibility is also satisfied inside Fusion. Nearly 40 recycled 16-oz. plastic bottles go into the EcoCloth seats on select models, while recycled material is used for the injection-moulded splash shields and other underbody components.

Set the ambient lighting¹ to your choice of 7 hues to bring it all together.

SE. Dune leather trim. Luxury Package. Available equipment.

¹Available feature.

Responsive. Just say a command.

Then get connected as voice-activated Ford SYNC®¹ delivers hands-free calls with the simple push of a button and the sound of your voice. Once paired, automatic phone book download transfers the names and numbers in your compatible phone. Voice-activated music search lets you say what music you want to hear and listen to it easily, or say "Bluetooth® audio" to stream content from your phone. Plug in your MP3 player, USB or iPod® to listen to your favourites as well. SYNC also features 911 Assist® with GPS location reporting. SYNC. Say the word.

Fusion responds to your touch as well, via the SYNC with MyFord Touch™^{1,2} 8" colour LCD touch screen. Colourful graphics and simple controls make it easy to operate your phone, entertainment, navigation² and climate control.

For interactive maps to zoom and scroll, upgrade to the voice-activated Navigation System,² complete with 3D landmarks.

Listen to your favourites all across Canada with SiriusXM.^{®2} Your 6-month prepaid subscription gets you the best in audio entertainment including 100% commercial-free music from every genre, world-class news, sports, comedy and entertainment.³

| SYNC

((SiriusXM®))

Titanium. Ebony Black leather trim with perforated inserts. SYNC with MyFord Touch. Available equipment.

¹Some mobile phones and some digital media players may not be fully compatible. Driving while distracted can result in a loss of vehicle control. Only use SYNC/MyFord Touch/other devices, even with voice commands, when it is safe to do so. SYNC with MyFord Touch voice recognition and screens available in English, French and Spanish. Some features may be locked out when the vehicle is in motion. ²Available feature. ³SiriusXM subscriptions sold after 6-month prepaid period expires. Subscriptions are governed by SiriusXM Customer Agreement; see siriusxm.ca.

Agile. With dynamic ride and handling.

Several factors contribute to the excellent driving dynamics of the 2016 Fusion.

Stay poised through the corners, even under acceleration, thanks to standard Torque Vectoring Control.¹ By applying slight braking force to the inside front wheels as needed to help more torque reach the road, the system helps Fusion stay firmly planted.

Up the fun-to-drive factor even more with the 2.0L EcoBoost[®] engine² and SelectShift[®] automatic transmission,² whose 6 speeds can be paddle-shifted from the leather-wrapped steering wheel.²

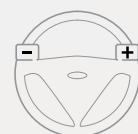

To maximize traction, Intelligent all-wheel drive (AWD)² constantly balances torque between the front and rear wheels, typically before wheelslip can even occur. Along with AdvanceTrac[®] ESC (electronic stability control)¹ with brake-actuated traction control, Fusion is engineered for maximum agility.

Titanium. Ingot Silver Metallic. Available equipment.

TORQUE VECTORING CONTROL¹

PADDLE

SHIFTERS²

AWD²

TRACTION

¹Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. ²Available feature.

Advanced. To help locate your sweet spot.

When parallel parking. Changing lanes. In traffic. And more.

Maintain your lane with help from our Lane-Keeping System.^{1,2} It can help detect lane markings with a forward-facing camera and send vibration pulses to the steering wheel. If needed, it can apply steering torque to prompt you to steer back toward centre.

Make parallel parking easier with active park assist.¹ This system not only helps you find a spot, it actually steers the vehicle into place while you control the gear shifter, and brake and accelerator pedals.

Get a heads-up from adaptive cruise control and collision warning with brake support! This system helps maintain your choice of 4 preset gaps from the vehicle in front of you and can alert you to a potential collision. If one is detected, it flashes a warning on the windshield, sounds an alarm, and preps the braking system to provide full responsiveness when you do brake.

Stay alert to traffic detected in blind spots as you drive forward, or traffic nearing either side of the vehicle as you slowly back up, thanks to BLIS[®] (Blind Spot Information System) with cross-traffic alert! It helps warn you using lights embedded in the sideview mirrors.³

Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle.
¹Available feature. ²Lane-Keeping System does not control steering. ³BLIS replaces standard integrated blind spot mirrors.

Stable. When it's needed most.

Rest assured that the 2016 Ford Fusion is engineered to bring stability to your journey.

8 standard airbags increase protection, including side-curtain airbags with roll-fold technology that deploy to cover both rows of the vehicle. Every Fusion also comes with driver and front-passenger knee airbags, front-seat side airbags and the dual-stage front airbags included in our Personal Safety System.™ Inflatable rear safety belts¹ (in the rear outboard seating positions) are also available.

To help ensure proper tire inflation, the standard Tire Pressure Monitoring System (TPMS) alerts you when any tire's pressure is low, giving you time to get assistance if needed.

Encourage smart driving habits for your teens with our exclusive MyKey,[®] which lets you block calls and text messages while your teenagers are driving.
